Music Center-BT

powered by Bang & Olufsen ICEpower®

MC-1BT

Introducing a new addition to our Music Center range, the MC1-BT can now directly connect to your Bluetooth enable product. Featuring the highest quality Bluetooth aptX coding, you will enjoy the Elipson sound quality for your portable device's music.

The Music Center BT houses the best digital technology: DAB/DAB+/RDS FM radio, CD player and USB input (MP3/WMA compliant). A switching amplification solution from Bang&Olufsen ICEpower (R) was chosen for its sound quality and high power efficiency.

ICEpower® is an independent subsidiary of Bang & Olufsen a/s.

Accessories

Music Center / Planet L stand

The Music Center floorstands have been conceived and designed in the spirit of the speaker itself. The satin brushed steel finish is indeed the same used on the Music Center. The weight of the stand makes it very stable (15kg), and the cable management system permits to hide the cable inside the stand for a better integration.

Specifications
