Elipson Lenny is very efficient and at the forefront of the latest digital audio standard for wireless speakers.

Born from the cooperation between Habitat & Elipson and Compatible with the Bluetooth 2.1 protocol, it has been designed to work wirelessly with any devices (Android or iOS smartphones, Computers...) that are equipped with a Bluetooth Connectivity.

In addition, Lenny is a portable Bluetooth speaker and with its high capacity battery you can listen to your music for up to 8 hours wherever you want and is weather resistant to be used outdoors.

Lenny is equipped with two loudspeakers of 2.5 inch loudspeakers and a 4 inches passive Loudspeaker which enables the speaker to deliver a powerful, room filling sound that belies its compact size.

The Lenny speaker is a perfect example of the association between design and smart technology. Lenny is a high end Bluetooth and mobile speaker for your office, holiday location or anywhere inside or outside the home, allowing you to share your latest music with friends and family.

Lenny is the perfect companion to wireless enjoy your music at its best wherever you want !

Design by Pierre Favresse for Habitat & Jean-Yves Le Porcher for Elipson.
