

Model One® shown in {Frost White Collection} Frost White/Snow White

#### FROST WHITE COLLECTION

### Model One® AM/FM Table Radio

**Introducing the Model One Frost White Collection. With a pure white, multi-layer high gloss cabinet, vibrant face plate and silver knobs, it's easier than ever to bring a splash of color into your life.**

Where performance and simplicity are paramount but space is sparse, the Model One® mono table radio fits the bill. With just three knobs, it is the antithesis of today's ever more complex electronic products. But behind the Model One's simple appearance hides a multitude of technology, facilitating higher sound reproduction and better reception over anything else near it in size or cost.

Inside we use a discrete-component FM tuner with GaAs MES-FET mixers originally developed for cellular phones, resulting in improved FM reception. Acoustically speaking, Tivoli Audio's equalization and voicing gives the Model One a sound much richer and larger than its footprint. Sometimes the simplest things in life can also be the most pleasurable.

Like all Tivoli Audio® products, the Model One AM/FM table radio is compatible with iPod® and other players.

- Exceptional musical fidelity
- Large 5:1 ratio analog tuning dial
- Pulls in more radio stations
- Auxiliary input and headphone output
- 3" full range, long-throw driver
