Weight (kg/lb)	Left: 5.1/11.24, Right: 3.6/7.93
Product Finish	HG Black or HG White

- **Self-powered bookshelf speaker system**
- **Expertly crafted Danish design**
- **Two digital and two analog inputs allow multiple sound source hookup**
- **Reproduces music and movie/TV sound with amazing full-range sound**

Design

The Jamo P 404 is as suited for desktop duties with a computer as it is for a music system in the living room or kitchen. Built for compelling, full range sound from a bookshelf-size speaker pair, their elegant and functionalistic design is a hallmark of Danish architecture. Available in rich high-gloss black or white, they place anywhere in a room with ease. The remote controls all functions including volume, bass, treble, source and more. You can even add an optional powered subwoofer for ground-shaking bass.

Technology

Each solid speaker cabinet houses a 1" soft dome tweeter and a 5.5 inch woofer for detailed, full-range sound. The active left speaker has four different inputs and a subwoofer pre-out, and different sound sources can be connected simultaneously by either optical, RCA or 3.5mm inputs. A USB port can be used to charge smart phones or tablets, or connect the optional Jamo WK 200 wireless kit to wirelessly stream audio from a selected source.
